PROFESSIONAL SUMMARY

Results-driven Machine Learning Engineer with 2+ years of hands-on experience designing, training, and deploying scalable deep learning models. Proficient in Python, PyTorch, Scikit-learn, and cloud microservices.

PROFESSIONAL EXPERIENCE

Junior Machine Learning Engineer | Cognitive AI Labs (2023 - Present)

- Spearheaded model retraining workflows and optimized deep learning inference endpoints using FastAPI and Docker.
- Key Achievement: Reduced GPU memory consumption by 35% through 8-bit quantization and model pruning.

KEY PROJECTS

Neural Vision Defect Detector | *PyTorch, FastAPI, Docker, OpenCV*

- Developed an industrial surface defect classification pipeline achieving 96.4% precision on inspection datasets.
- Trained ResNet-50 backbone with custom attention heads and deployed as a Dockerized REST microservice.
- Impact & Results: Decreased quality inspection latency by 42% across manufacturing production lines.

TECHNICAL SKILLS

Programming: Python, SQL, C++, TypeScript
AI/ML: PyTorch, TensorFlow, Scikit-learn, HuggingFace, NLP
Web Development: FastAPI, React, Node.js, REST APIs
Cloud & DevOps: AWS (EC2, S3), Docker, Git, CI/CD
Databases: PostgreSQL, Redis, MongoDB

EDUCATION

B.S. in Computer Science & AI — University of California, Berkeley (2023 | CGPA: 3.85 / 4.0)

CERTIFICATIONS

- AWS Certified Solutions Architect – Associate
- DeepLearning.AI Machine Learning Specialization

HONORS & ACHIEVEMENTS

- 1st Place Winner at HackCal 2023 with AI healthcare triage system
